PROFILE

I am confident in my skills as a designer, developer and artist. My goal is to portray that same confidence in your brand.

EXPERIENCE

TIRED HANDS BREWING COMPANY — CSS, ART DIRECTOR, MURALS

I assisted in making the new site for Tired Hands Brewing Company. I also did the interior design of their new place FERMENTARIA, completing several murals on the wall and making a chalk board out of salvaged slate roof shingles from a building in Philadelphia. I continue making beer labels and illustrations for them.
